

Boil water both safely and efficiently with the FilterFlow Automatic Fill Electric Push-button Water Boiler. The lockable mode makes this boiler ideal for locations with vulnerable individuals, such as prisons or care homes. Providing hot water on tap 24/7, the boiler also comes with a filtration system built-in to improve water quality. You can modify the settings via the clever colour touchscreen display, while the boiler is designed to save energy via its eco mode which learns usage patterns and switches to 50% volume.

- FC04 EBFX WATER FILTER - FROM 2015

#### PRODUCT FEATURES

- Convenient push button operation, ideal for front of house and self service
- Lockable mode prevents water being dispensed without the input of a PIN code, perfect for schools, prisons, care homes and settings with vulnerable individuals
- Narrow 250mm footprint saves valuable counter space without compromising capacity or performance
- Built-in water filtration system improves water quality and reduces scale build-up. High volume, easy change FilterFlow cartridge
- Easily operated from a large, colour touchscreen display. Menu navigation is quick and easy with the temperature and timer simple to adjust
- Eco setting reduces the volume of boiling water by 50% for quieter periods. The intelligent predictive eco setting learns usage patterns and switches between eco mode and standard mode to deliver the required hot water output in the most economical way
- 7-day timer allows the boiler to be programmed to switch off overnight or at weekends to conserve energy
- Enhanced diagnostics identify possible causes. The on screen diagnostic information will enable the engineer to identify the parts needed and repair your water boiler at first visit
